Turning Points of Microsoft Word

Course Duration

2 Day

Time

09.30 – 16.30

Course Description

Microsoft Word is the world's leading word processing package and part of the Microsoft Office Suite. Word makes common word-processing tasks simpler with its built-in intelligence. By recognising what you want to do, Word quickly produces the results you need, so you get more done in less time. You can create a simple memo to a large full scale health and safety handbook and anything in between.

Course Benefits

The course will provide delegates with:

- ∞ A comprehensive understanding of Microsoft Word
- ∞ More productive workflow in the work environment
- ∞ Make the best of Microsoft Word's powerful features and tools
